Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

Dear Michael:

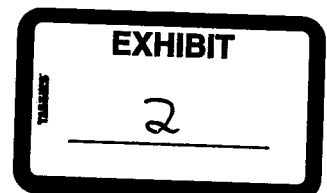

Consistent with the Court's order of January 5, 2007 (Dkt. 1016), but without waiving our objections to making this production, we are today FedExing to you STOK-CD102, along with an index of the data being produced.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock

Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

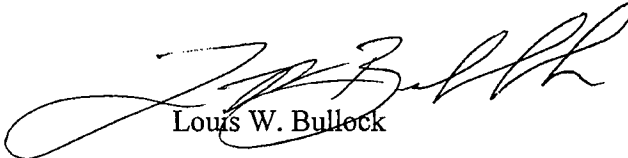

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD100, along with an index of the data being produced.

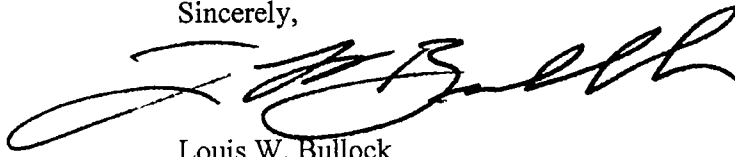

Included in this production is a final EML report, along with preliminary data from Aquatic Research and A&L Labs. The production of this preliminary data is being expedited pursuant to the Defendants' request and the Court's Order (Dkt. 1710). It is important to understand that in order to expedite the production of this data, we have not been able to complete our internal QA/QC process this data. When that review is completed, we will supplement the production.

The USGS data has been provided in electronic format on the CD, as well as in bates-numbered .tif format.

Also included in this production are sampling photos and related field book, along with chain of custody records.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

A handwritten signature in black ink, appearing to read "L. W. Bullock", written over a horizontal line.

Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD95, along with an index of the data being produced.

Included in this production is preliminary data from Aquatic Research. The production of this data is being expedited pursuant to the Defendants' request and the Court's Order (Dkt. 1710). It is important to understand that in order to expedite the production of this data, we have not been able to complete our internal QA/QC process this data. When that review is completed, we will supplement the production.

Also included is an EML report from sampling conducted on 09-04-08, as well as data from Lake Event sampling conducted on 09-22-08.

Please note that we have included page 16 from the field book produced on September 19, 2008 at STOK 56860-56931 on STOK-CD93. Page 16 was inadvertently omitted from the original production.

Several hundred photos are included in this production from edge of field sampling and river sampling. The related field books were produced on STOK-CD93.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock

Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD93, along with an index of the data being produced.

Included with this production is sampling that has been undertaken by the Oklahoma Scenic Rivers Commission (OSRC). As I have stated before, while the production of the OSRC data may be covered by other discovery from the Defendants, it is not subject to the Court's January 5, 2007 Order or the Court's Order which requires expedited production of the results of the analysis of data collected by the State's retained experts. These materials are being produced in this expedited fashion as an accommodation.

Please note that the Aquatec spreadsheets have been provided both in .tif format as well as in native EDD format on the CD.

Also included is preliminary data from Aquatic Research. The production of this data is being expedited pursuant to the Defendants' request and the Court's Order (Dkt. 1710). It is important to understand that in order to expedite the production of this data, we have not been able to complete our internal QA/QC process this data. When that review is completed, we will supplement the production.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock

Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD92, along with an index of the data being produced.

Included with this production is sampling that has been undertaken by the Oklahoma Scenic Rivers Commission (OSRC). As I have stated before, while the production of the OSRC data may be covered by other discovery from the Defendants, it is not subject to the Court's January 5, 2007 Order or the Court's Order which requires expedited production of the results of the analysis of data collected by the State's retained experts. These materials are being produced in this expedited fashion as an accommodation.

Also included is preliminary data from Aquatic Research. The production of this data is being expedited pursuant to the Defendants' request and the Court's Order (Dkt. 1710). It is important to understand that in order to expedite the production of this data, we have not been able to complete our internal QA/QC process this data. When that review is completed, we will supplement the production.

EML report 452431 was previously produced on STOK-CD91. It has now completed its internal review and the revised report is contained in this production.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock

Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD88, along with an index of the data being produced.

Included with this production is sampling that has been undertaken by the Oklahoma Scenic Rivers Commission (OSRC). As I have stated before, while the production of the OSRC data may be covered by other discovery from the Defendants, it is not subject to the Court's January 5, 2007 Order or the Court's Order which requires expedited production of the results of the analysis of data collected by the State's retained experts. These materials are being produced in this expedited fashion as an accommodation.

Also included are Aquatic Research reports, along with CDM's review of those reports. With one exception, the Aquatic Research reports provided in this production were previously provided as preliminary results that have now completed their QA/QC review and are now finalized. The exception to this is STOK 00056257 – STOK 00056259 which was apparently overlooked during the prior production and is now produced as final results.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock

Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD85, along with an index of documents being produced.

STOK 56122 is a privileged communication which was included in the documents at the time they were numbered. Rather than renumber the documents and perhaps cause later confusion, I have listed it on the index as a privileged communication.

As I have stated before, while the production of documents related to the Oklahoma Scenic Rivers Commission may be covered by other discovery from the Defendants, it is not subject to the Court's January 5, 2007 Order or the Court's Order which requires expedited production of the results of the analysis of data collected by the State's retained experts.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

A handwritten signature in black ink, appearing to read "L. W. Bullock", written in a cursive style.

Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

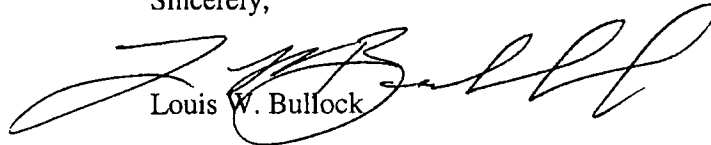

Dear Michael:

We are today FedExing to you STOK-CD83, along with an index of documents being produced. This production relates to sampling that has been undertaken by the Oklahoma Scenic Rivers Commission (OSRC). As I have stated before, while the production of the OSRC data may be covered by other discovery from the Defendants, it is not subject to the Court's January 5, 2007 Order or the Court's Order which requires expedited production of the results of the analysis of data collected by the State's retained experts. These materials are being produced in this expedited fashion as an accommodation.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock

Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD82, along with an index of documents being produced.

Included in this production are sample analysis reports for the sampling that has been undertaken by the Oklahoma Scenic Rivers Commission (OSRC). As I have stated before, while the production of the OSRC data may be covered by other discovery from the Defendants, it is not subject to the Court's January 5, 2007 Order or the Court's Order which requires expedited production of the results of the analysis of data collected by the State's retained experts. These materials are being produced in this expedited fashion as an accommodation.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

A handwritten signature in black ink, appearing to read "L. W. Bullock", written in a cursive style.

Re: *State of Oklahoma v. Tyson et al.*, No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD81, along with an index of documents being produced.

The production of this data is being expedited pursuant to the Defendants' request and the Court's Order (Dkt. 1710). It is important to understand that in order to expedite the production of this data, we have not been able to complete our internal QA/QC process on all of this data. As the review process is completed, we will supplement the production.

Included in this production is a draft of the Quality Assurance Project Plan for the sampling that has been undertaken by the Oklahoma Scenic Rivers Commission (OSRC). I believe this plan will soon be finalized and I will provide the finalized plan when it is complete. As I have stated before, while the production of the OSRC data and the attached Project Plan may be covered by other discovery from the Defendants, they are not subject to the Court's January 5, 2007 Order or the Court's Order which requires expedited production of the results of the analysis of data collected by the State's retained experts. These materials are being produced in this expedited fashion as an accommodation.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock

Re: *State of Oklahoma v. Tyson et al.*
No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD66, along with an inventory of documents being produced.

The production of this data is being expedited pursuant to the Defendants' request. It is important that it be understood that in order to expedite the production of this data, we have not been able to complete the QA/QC process on this data. As that process is completed, we will further supplement the production.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock

Re: *State of Oklahoma v. Tyson et al.*
No. 05-CV-0329-GKF-SAJ

Dear Michael:

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD63, along with an inventory of the reports being produced. The production of this data is being expedited pursuant to the Defendants' request. It is important that it be understood that in order to expedite the production of this data, we have not been able to complete the QA/QC process on this data. As that process is completed for this data, we will further supplement the production. I am informed that additional data should be available to be produced later this week. I will continue to provide it to you as it is received.

In making this production, we understand the Court's Order of January 5, 2007 to be limited to the production of facts and not to extend to the production of the opinions or analysis of our experts or to require further invasion of our work product. To the extent that other orders allow discovery of such matters, we will, of course, comply within the limits of those orders.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock

Re: *State of Oklahoma v. Tyson et al.*,
No. 05-CV-0329-GKF-SAJ

Dear Michael:

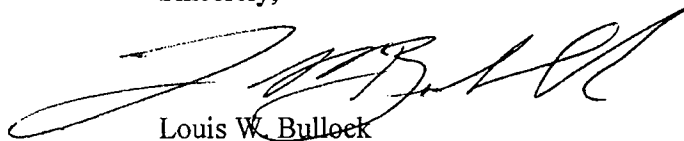

Pursuant to the Court's order of January 5, 2007 (Dkt. 1016), and without waiving our objections, we are today FedExing to you STOK-CD62, along with an inventory of the EML reports being produced.

In making this production, we understand the Court's Order of January 5, 2007 to be limited to the production of facts and not to extend to the production of the opinions or analysis of our experts or to require further invasion of our work product. To the extent that other orders allow discovery of such matters, we will, of course, comply within the limits of those orders.

This brings up to date our production of all of the sampling results required by the Court's Order of January 5, 2007. I am informed that some samples are still being processed and we have asked the laboratories to expedite the processing of those results. I will provide them as soon as possible. Should the Plaintiff perform any other sampling, we will continue to supplement this production.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock

Re: *State of Oklahoma v. Tyson et al.*,
No. 05-CV-0329-GKF-SAJ

Dear Michael:

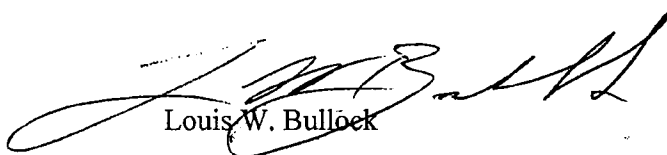

Pursuant to the Court's order of January 5, 2007 (DKT 1016), without waiving our objections, we are today FedExing to you two CDs -- OKPL_CD08 and STOK_CD61.

In making this production, we understand the Court's Order of January 5, 2007 to be limited to the production of facts and not to extend to the production of the opinions or analysis of our experts or to require further invasion of our work product. To the extent that other orders allow discovery of such matters, we will, of course, comply within the limits of those orders.

As to both of these CDs, you will find attached an inventory setting out the contents. OKPL_CD08 replaces the unnumbered pictures and reports previously provided to you attached to e-mails from me dated April 14, 2008 and April 16, 2008.

Should you have any questions concerning this production, please do not hesitate to call.

Sincerely,

Louis W. Bullock

Re: *State of Oklahoma v. Tyson et al.*,
No. 05-CV-0329-GKF-SAJ

Dear Michael:

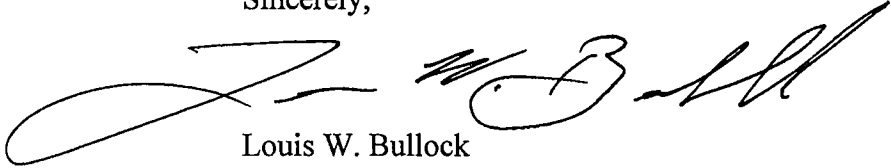

This is a follow-up to my letter of March 25, 2008 and the attachments thereto. This production is made pursuant to the Court's Order of January 5, 2007 (Dkt. 1016). The same caveats and reservations apply to this production as applied to the earlier ones made in compliance with that order. In making this production, we understand the Court's Order to be limited to the production of facts and not to extend to the production of the opinions or analysis of our experts or to require further invasion of our work product.

Without waiving our objections, we are today replacing the Temp CD with STOK-CD59. The documents on the Temp CD have now been bates numbered (STOK 49369-51630) (see attached index). Also included on STOK-CD59 are the chain of custody forms (STOK 50052-50093) addressed in the previous letter which were not included on the Temp CD.

We are also producing STOK-CD60 which contains the last of the photographs (STOK 51631-53415). As with the earlier photographs, we have expended extra time and effort to link the particular photos in a manner that should assist in locating where and when the picture was taken. In the process of making this production, we discovered a copy of a field notebook that was previously produced on 2-8-07 as OKPL 5864-5946. The field book we are producing today has an additional page at the end of the document. While that page, frankly, does not make any sense to me, in the interest of completeness, I am producing the field book, numbered STOK 53416-53501. My review of this field book suggests that there are no other differences between the two documents other than the additional page, but I have not gone through it line by line to confirm that is, in fact, the case.

The disks STOK-CD59 and STOK-CD60 will be sent via FedEx today. I believe this brings our production up to date. We will supplement this, should we receive additional matters which are required to be produced by the Court's order. Should you have any questions, please call me so that we can discuss it.

Sincerely,

A handwritten signature in black ink, appearing to read "L. W. Bullock", written in a cursive style. The signature is positioned above the printed name "Louis W. Bullock".

Louis W. Bullock
